Climate Change and Human Health Literature Portal

Erratum: Winter mortality modifies the heat-mortality association the following summer (European Respiratory Journal (2009) 33 (245-251))

Author(s): Rocklov J, Forsberg B, Meister K

Year: 2009

Journal: The European Respiratory Journal. 33 (4): 947

Source: http://dx.doi.org/10.1183/09031936.50037808

Resource Description

Exposure: M

weather or climate related pathway by which climate change affects health

Temperature

Temperature: Extreme Heat

Geographic Feature: M

resource focuses on specific type of geography

None or Unspecified

Geographic Location: M

resource focuses on specific location

Global or Unspecified

Health Impact: M

specification of health effect or disease related to climate change exposure

Cardiovascular Effect, Injury, Respiratory Effect

Mitigation/Adaptation: **№**

mitigation or adaptation strategy is a focus of resource

Adaptation

Resource Type: **☑**

format or standard characteristic of resource

Research Article

Timescale: M

Climate Change and Human Health Literature Portal

time period studied

Time Scale Unspecified

Vulnerability/Impact Assessment: №

resource focus on process of identifying, quantifying, and prioritizing vulnerabilities in a system

A focus of content
